

BENDERS PAPER LIDS

PAPER LIDS FOR PAPER CUPS

Benders paper lids are made from sustainably sourced PEFC (Programme for the Endorsement of Certification) certified paperboard and can help to reduce plastic usage.

Benders new paper lids can be recycled together with paper cups making it easier for consumers to dispose of once used.

Lids click securely on top of Benders paper cups, ensuring a safe drinking experience.

Using Benders paper lids can help reduce the use of plastic and in decreasing carbon footprints.

Benders paper lids are available in a range of sizes.

Benders new paper lids, developed using sustainable and recyclable paperboard are an environmentally friendly alternative to plastic lids, supporting a circular economy and reducing impacts on climate change.

New lids are made from sustainably managed forestry and are PEFC certified, as with Benders paper cups, and with an aqueous dispersal coating. Benders paper lids are recyclable once used, in the same way as our paper cups. They can be disposed of together and are a valuable source of recycled fibre.

Using Benders paper lids can help reduce the use of plastic and in decreasing carbon footprints.

You can rely on Benders to make the right environmental choices whilst also providing a safe and convenient solution, allowing consumers to transport their hot drinks in paper cups, to drink on-the-go and simultaneously recycle both lid and cup once used.

Benders paper lids can be personalised. Custom printed lids will help to promote your brand consistently together with Benders paper cups.

Product Code	Rim Diameter	Case Total	Case per Pallet	To Fit
8700571	73mm	1000	18	All 7/9oz Sqt
8700213	80mm	1000	18	All 8/9oz
8700336	90mm	1000	18	All 12 & 16 oz
